

EC 536: Problem Set 7, Prof. Alessandro Gavazza

The goal of this problem set is to attempt to replicate the paper by P. Grieco and R. McDevitt, “Productivity and Quality in Health Care: Evidence from the Dialysis Industry”, *Review of Economic Studies*, 2017.

The data are on Moodle.

1. Replicate Tables 5-8 of the paper.
2. Feel free to add any comment or remark.

The due date is **June 1st, 2020 at 10am**. Please send a writeup of your answers, along with computer codes, by email to `a.gavazza@lse.ac.uk`.
